

# SUVON

## A Guide to the Campus Telephone Network

The State Universities Voice Network (SUVON) links the telephone systems of 75 college or university campuses and Learning Centers throughout Indiana. It is available around the clock to campus faculty and staff for educational and business telephoning. SUVON may not be used for personal calls.

### TO DIAL A NETWORK LOCATION

To place a call on SUVON, you must first dial an access code that connects your telephone to the SUVON switch. Next dial: 1 + area code + seven-digit campus telephone number. This guide shows the area code and prefix number for each location. If you don't know the extension number, you can dial the campus operator for information. In a few cases, your call will come directly to the campus switchboard, and the operator will extend your call.

### TO DIAL AN OFF-NETWORK LOCATION

A secondary purpose of SUVON is the ability to call off of the network in some cities. To do so, simply dial your SUVON access number, then dial 1 + the long-distance telephone number (including area code). If the number is available by SUVON, your call will go through. If the location is NOT available via SUVON, you will hear a message to that effect.

### TO REPORT A PROBLEM

Problems can't be corrected if no one knows about them, so please **report problems immediately to your own campus telephone operator.**

CAMPUS LOCATION	CAMPUS OPERATOR	CAMPUS PREFIX AND EXTENSION	CAMPUS LOCATION	CAMPUS OPERATOR	CAMPUS PREFIX AND EXTENSION
